Max of 3

Topics: Scanner class, Math class

Program Description

Write a Java program that reads three integers and prints the maximum value.

Your may <u>not</u> use `if` statement.

Hint: **Math** class.

Guidelines

- Name it MaxOf3.java
- Your program should be properly commented

Sample Output

(User's input are in red.)

```
Please enter three integers: -37 5 -1992
Max: 5
```
